CALL FOR PAPER

MANAGEMENT OF INFORMATION SYSTEMS & DECISION SUPPORT

CO-CHAIRS

- Amine Belhadi, International University of Rabat (UIR), Morocco, amine.belhadi@uir.ac.ma
- Sachin Kamble, EDHEC Business School, France,

SCOPE AND MOTIVATION

We are delighted to invite researchers, academics, and industry professionals to submit their papers to the 1st International Conference on Transformative Technologies: Secure Networks & Decision Empowerments (ICTT'24) Track on management of information systems & decision support. The conference will take place on 05-07 june 2024 at ESAIP, Angers, France, featuring an exciting lineup of events, including keynote speakers, an expo, tutorials, and workshops. The primary focus of the conference will be on the intersection of management of information systems and decision support.

Submitted papers must be up to 9 pages including references and up to 50MB for supplementary materials. The reviewing process include abstract review and double-blind review. For each accepted paper, at least one author is required to join the conference to present their work in person.

TOPICS OF INTEREST

The International Conference on Transformative Technologies: Secure Networks & Decision Empowerments (ICTT'24) is an interdisciplinary international conference that brings together researchers from cybersecurity, artificial intelligence, datascience, big data, management of information systems, decision support and networking. More specifically, the special track on management of information systems & decision support focus on the integration and innovation of cutting-edge technologies to enhance organizational decision-making processes and secure network infrastructures. This track aims to foster discussions and collaborations among professionals and academics by providing a platform to share the latest advancements, methodologies, and practical challenges encountered in these dynamic fields. We invite submissions presenting new and original research on topics including but not limited to the following:

- Information Systems Strategy and Planning
- Digital transformation strategies
- IT governance and compliance
- Data Management and Analytics
- Big data analytics
- Data warehousing and data lakes
- Data quality and data governance
- Predictive and prescriptive analytics
- AI and machine learning for decision support
- Expert systems and knowledge-based decision support
- Multi-criteria decision analysis
- Real-time decision support systems
- Business Intelligence and Reporting
- Digital Transformation in Healthcare & Financial services and fintech
- Digital Transformation in E-commerce and retail technology
- Digital Transformation in Manufacturing and Industry 4.0

Management of information systems & decision support systems are rapidly evolving fields, and so, we welcome interdisciplinary submissions that do not fit neatly into existing categories.

HOW TO SUBMIT A PAPER

All papers should be submitted via EasyChair . Full instructions on how to submit papers and important deadlines are available at : https://colloque-cybersecurite.esaip.org/
